Interface  
(ASI)

## Our Business

Kreon Technology has established itself as a leading developer of state-of-the-art electronic sub-systems aimed at defense and high-end industrial sectors. Complete solutions are provided from concept definition to volume manufacturing.

## Capabilities and Services

Kreon Technology provides the following engineering disciplines during the development cycle:

- System Engineering
- Algorithm Development
- Hardware Development
- Software Development
- Qualification
- System-level Integration
